## YARD IMPROVEMENTS START IMMEDIATELY

Date of Commencing Activities Is Fixed as Within Ten Days, When a Big Force Will Be Employed in Laying New Tracks in the Yards—Kiesel Lease to be Satisfactorily Acted Upon.

Local railroad officials familiar to a great extent with plans and purposes of the Harriman management regarding important improvements ordered at Ogden this season, state positively that work will be inaugurated within the next week or ten days—and be pushed to completion without further delay or interruption.

The first work started will be the radical enlargement and rearrangement of the Harriman yards in this city, and as soon as that important and expensive proposition is fully under way, the preliminary work in connection with the erection of the new joint freight depot will be begun.

Discussing the subject this morning, a thoroughly posted operating official said:

"We need additional yard room and facilities badly at this time to handle the increasing traffic, and the delay is expensive and annoying to those connected with the operating department of the several Harriman roads

centering in this city. The new freight depot and storehouse buildings are also needed to expedite business and to take care of both local and through traffic—freight shipments I mean that are destined for Ogden or require re-loading at this point.

"The delay up to this time has been caused largely by tardiness in securing the release of certain leases to different sites required for the improvements ordered, but I am glad to say that these matters have all been adjusted with one exception, and that satisfactory arrangements are now being concluded between Mr. Kiesel and railroad officials for his property on the corner of Wall avenue and Twenty-fourth street. As soon as the formal transfer of this property has been made—and it is expected to occur during the present week—the new work planned and authorized will be taken up and large forces of men put to work on all the improvements contemplated by the Harriman people in this city."

## SHOOT WILL BE HELD IN AUGUST

WASATCH GUN CLUB MAKING EXTENSIVE PREPARATIONS.

Many Professionals to Take Part in the Tournament—Scores Made For the Dupont Trophy.

The Wasatch gun club held a shoot at the club ground last week in which there were seven contestants for the Dupont trophy. The scores made were:

Becker ..... 50  
Loomis ..... 49  
Aadnesson ..... 48  
Skeen ..... 48  
Harrop ..... 45  
Pierson ..... 45  
Bott ..... 45  
G. A. Becker's clear score gave him the honors of the day.

The club is preparing for the Utah-Idaho tournament to be held here August 11, 12 and 13. Many shots from Idaho, Montana, Nevada and all over Utah will be present and fifteen or twenty professionals have signified their intention to take part.

The Wasatch grounds are being placed in excellent condition for the big event.

## WEDDING YESTERDAY AT PRESBYTERIAN CHURCH

Charles F. Robinson, of Opel, Wyoming, and Emma C. Horcher of Evansville, Wyoming, were united in the holy bonds of matrimony at the Presbyterian church, the Rev. John E. Carver performing the ceremony.

After spending a short honeymoon in the northwest section of the country, Mr. and Mrs. Robinson will return to the Wyoming home for the summer, after which they will return to Ogden where they will make their permanent residence. Mr. Robinson is a prominent ranchman and stock owner of Opel, and he also owns considerable real estate here.

## JAMES H. ANDERSON IS NAMED U. S. MARSHAL

President Taft Declares He Will Rush Nomination So Senate May Act.

Washington, July 13—James H. Anderson of Salt Lake has been recommended for appointment as United States marshal for the Utah district. President Taft stated that he would rush the nomination of Mr. Anderson so that it might be confirmed by the senate tomorrow.

Senators Reed Smoot and George Sutherland and Representative Joseph Howell today called at the White House and united in the recommendation of Mr. Anderson for the place.

## ORIGIN

Of a Famous Human Food.

The story of great discoveries or inventions is always of interest. A Seattle brain worker who found himself hampered by lack of bodily strength and vigor and could not carry out the plans and enterprises he knew how to conduct, was led to study various foods and their effects upon the human system. In other words before he could carry out his plans he had to find a food that would carry him along and renew his physical and mental strength.

He knew that a food which was a mere fat and nerve builder, rather than a more fat which was universally needed. He knew that meat with the average man does not accomplish the desired results. He knew that the soft gray substance in brain and nerve centers is made from Albumen and Phosphate of Potash obtained from food.

Then he started to solve the problem. Careful and extensive experiments evolved Grape-Nuts, the now famous food. It contains the brain and nerve building food elements in condition for easy digestion.

The result of eating Grape-Nuts daily is easily seen in a marked steadiness and activity of the brain and nervous system, making it a pleasure for one to carry on the daily duties without fatigue or exhaustion.

Grape-Nuts for it is no sense a stimulant but is simply food which renews and replaces the daily waste of brain and nerves.

Its flavor is charming and being fully and thoroughly cooked at the factory it is served instantly to you.

The signature of the brain worker spoken of, C. W. Post, is to be seen on each genuine package of Grape-Nuts. Look in pkgs. for the famous little book, "The Road to Wellville."

"The President at once agreed to make the appointment and promised to hasten it as stated."

Mr. Anderson, who was formerly Republican state chairman of Utah, and has served as Salt Lake county commissioner and deputy internal revenue collector, is regarded as the most active party worker in the state, and he was endorsed by the leading citizens.

Senators Smoot and Sutherland and Representative Howell believe that the appointment will prove a popular one and that Mr. Anderson will give a very satisfactory administration of the office in which he will succeed Lucian H. Smyth, who was appointed by Judge J. A. Marshall to temporarily fill the place which had been vacated by the resignation of Governor William Spry.

CHAMPION RACE HORSE WILL RUN NO MORE RACES

New York, July 13—Roseben, once the champion racehorse of the American turf, and believed by many to have been the champion sprinter of the world, will race no more. David Johnson, his owner, has decided to ship him to the big farm of James W. Wadsworth, in the Genesee valley, where he will pass the remainder of his days grazing on fine pastures.

Roseben broke down hopelessly in the forelegs after his race at Sheepshead Bay ten days ago, when he was defeated by Nimbus. In that race, Johnson and his friends tried to make a big winning, and wagered large amounts of money on the famous champion at odds of about 8 to 1.

One of the sensational big winnings of the turf was made on Roseben two years ago when his owner bet \$30,000 an even money that he could sprint seven furlongs in 1:25. He did it in 1:22 and Johnson won his \$30,000 and Roseben established a world's record which no horse has equalled.

Roseben, raced in California last winter and won some good races, but his legs commenced to trouble him and on his return to the east, it was seen that his racing days were over.

JACK JOHNSON AND AL. KAUFMAN MAY MIX

Chicago, July 13—Jack Johnson yesterday accepted an offer of a guarantee of \$10,000 to fight Al Kaufman, the Pacific coast heavyweight.

The battle, according to the telegram received by Johnson, will be decided on the night of August 27.

The offer came from the matchmaker of the Mission club in San Francisco.

The affair will be 20 rounds, this distance being in accordance with Johnson's wishes when the match was first broached.

BUFFETED ABOUT ON SEA FOR THREE DAYS.

New York, July 13—After spending three days and two nights on the dismantled bulk of the two-masted schooner "Elk," which was capsized in mid-ocean in a southeasterly gale, Captain Thomas James, his crew of three men, and a 13-year-old boy son of the vessel's owner, were rescued, famished and almost frozen by thirst, by a boat's crew from the steamship America, which brought them into this port yesterday.

PRESIDENT TAFT THREE DAYS IN YOSEMITE

Washington, July 13—President Taft continues his receipt of invitations to visit cities that were not included in the announced itinerary of his western and southern trip. The President has definitely decided to spend three days in the Yosemite Valley.

Representative Nedham of California, called with the President concerning this feature of the trip today, and was requested to make the necessary arrangements.

James H. Anderson, U. S. Marshal for Utah

Washington, July 13—The President today named James H. Anderson as marshal for Utah.

## NEW AEROPLANE OF MONOPLANE TYPE

## CLOSING QUOTATIONS OF WORLD'S MARKETS

OPENING TRADING IN STOCKS IS DULL

Washington, July 13.—A new aeroplane, of the monoplane type, and embodying several novel features, is being built in Washington by John H. Smiley of Bridgeport, Conn. The inventor intends to bid for the construction of a machine in the event that the signal corps proposes new specifications.

The monoplane is fifty-two feet across, from tip to tip, of its wings, and weighs 250 pounds with an eighteen horse-power motor installed. One of its features is the position of the propeller, which is placed in the exact center of the machine. A new method of control is used, consisting of two planes in front of the main wings, working with different angles and controlling both lateral and vertical movements. The lifting surfaces are curved. The machine is constructed of bamboo and a light canvas impregnated with a rubber solution. Smiley expects the monoplane to develop great speed.

## RETURNS FROM A TRIP THROUGH NORTHERN IDAHO

D. F. Seery, expert lumberman for the government forestry commission, has returned to Ogden from a two months' trip through the northern part of Idaho, where he visited Salmon City, Hailey and besides several other points, Armstrong, Mont. He traveled down the Salmon river to Shoup, Idaho.

Mr. Seery expresses himself as being favorably impressed with that section of Idaho. He says that the new railroad which has already been commenced between Armstrong and Junction, and which will extend through Salmon City and on to Lewiston, will open up a tract capable of furnishing more than 400,000,000 feet of fine timber. This new railroad is believed to be a part of the James J. Hill interests, and will, no doubt, do a great deal in the way of developing northern Idaho.

The railroad company will establish a roundhouse at Salmon City, it is thought, and most likely will build shops there later, as a ranch of 600 acres has been secured near that town. The road will be constructed about three miles from the present site of Junction, and it is predicted that a new townsite will spring up there.

The mining possibilities of this part of Idaho are wonderful, so the lumberman asserts.

New York, July 13.—The opening trading in stocks today was dull and price movement irregular within a narrow range. There were simultaneous sales of 4,000 shares of United States Steel at 70 and 69 3/4, the former price bettering the previous record and last night's closing price by 1/8. Republic Steel advanced 5/8. Wheeling & Lake Erie first preferred sold at a decline of 1/2.

Sharp fractional losses were made in some of the active railroad stocks and Anaconda and Copper and American Smelting lost a point. Illinois Central and Wabash preferred rose strongly, but some other prominent stocks continued under pressure.

Prices weakened further, the decline going far toward wiping out yesterday's advances. Wabash & Lake Erie first preferred fell 3/4, the common 2. Anaconda Copper 1 5/8. American Locomotive 1 1/4. Union Pacific, Southern Pacific, St. Louis Southwestern preferred, New York Central, International Pump and United States Steel.

Bonds were irregular.
